

Maths Week 5 Monday

Learning Intention: To double a number.

This week we will be learning about doubling numbers.

First have to a go at this doubling song to 10:

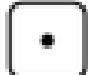

https://www.youtube.com/watch?v=Ik_-OAqzD-8

Learning about doubles is so useful because if you learn the number facts it makes working more complex things out in maths much quicker. So in the same way learning your number bonds helps, learning doubles help because as you get older you will use them to do very quick maths in your heads!

The great thing about doubles to 10 is that you have 10 fingers so can use your fingers to help you work them out! Have a go at working these out. You don't need to draw them in your books you can just write the number sentence or draw the dice dots if that helps.

Doubles to 10!

Use the pictures to find the following doubles.

1.  +  =

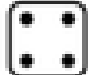

1.  +  =

2.  +  =

2.  +  =

3.  +  =

3.  +  =

4.  +  =

4.  +  =

5.  +  =

5.  +  =
