

Go Jetters Continent of Europe

1. Draw a line to match the landmark with the place it is in.

Eiffel Tower
Mount Etna
Grand Canal

Sicily
Venice
Paris

2. Which of these are continents? Tick two.

- ☐ North America
☐ Germany
☐ Asia

3. Find and copy the word that means 'a building'.

4. Fill in the missing word.

When it erupts, Mount Etna can shoot hot _____ into the air.

5. What was Venice built on?

6. What do you think the word 'population' means?

Go Jetters Continent of Europe

A **continent** is a large area of land that is often separated from other areas of land by a feature like a sea or mountains. There are seven continents. They are:

- North America
- South America
- Europe
- Africa
- Asia
- Oceania
- Antarctica

The Eiffel Tower is in Paris which is the capital city of France. It was built over 100 years ago and it used to be the tallest structure in the world. It is made from iron - a type of metal. The Eiffel Tower is Lars' favourite landmark.

Austria, Germany, France, Italy and Denmark are all in Europe.

Mount Etna is on the island of Sicily in Italy. It is a volcano. When it erupts, Mount Etna can shoot hot lava into the air. The eruptions create ash which help plants to grow.

Venice is a city in Italy. It was built on wooden poles. The Grand Canal runs through Venice. Each year, Venice sinks a small amount. There are no cars in Venice. People travel on foot or by boat.

Did You Know?

Ten percent of the world's population lives in Europe.
