

# Butterfly Life Cycle

## Home Learning Challenge

Take a walk around a garden, park or outside area. Can you find any butterflies or caterpillars? Try looking around some plants and flowers or under some leaves. You could draw a picture or take a photo of any you find.

Try making a model caterpillar or butterfly! You could use playdough, paper, empty cardboard boxes or tubes, yoghurt pots or plastic bottles.

There are 5 butterflies on a leaf. If 3 fly away, how many would be left on the leaf? You could use your fingers or draw a picture to help you.

Look at the pictures of the life cycle of a butterfly. Can you put them into the correct order? Talk about the life cycle together.
